OUR WORK

WHAT WE DO

Umande Trust provides sanitation, energy and water in some of the most impoverished areas in the world, where these fundamental human rights are challenged. By constructing centres for sanitation, energy provision and community bonding, we aim to create durable infrastructure through community engagement. Through collaboration with beneficiaries, facilities are tailored to the specific wishes of the community to favour. By working according to principles of inclusion, engagement, neutrality and development, we ensure basic needs are met now and in the future.

WHERE WE WORK

We are active in numerous cities and counties across Kenya, with headquarters in Kibera - District Commissioners Office, Nairobi and Kisumu.

WHO WE ARE

Umande Trust is a rights-based agency, founded on the belief that modest resources can help significantly improve access to water, sanitation services and clean energy. Umande Trust strongly believes that support of community-led plans and actions are key in achieving these improvements.

OUR MISSION IS TO PROMOTE ECO-INNOVATIONS THAT PLACE COMMUNITY GROUPS AT THE DRIVING SEAT OF ENTERPRISING SOLUTIONS.
